

WHAT WILL IT TAKE TO FIX HEALTHCARE? **START BY GETTING THE FACTS.**

In today's challenging healthcare environment it's important to separate fact from fiction. Every day, our customers are increasing efficiency, improving quality, fighting fraud and abuse, building better health plans, creating healthier workforces, saving more money — and more lives.

How? With intelligent information from Thomson Reuters.

Thomson Reuters provides an independent and objective source of content, analytics, and software that cuts through complex data and delivers the right facts to help you make cost-saving and quality improvement decisions.

Intelligent information enables fact-based improvements in critical areas such as cost containment, variation in medical treatment, fraud and abuse, health and productivity management, and comparative effectiveness research. It's the knowledge you need to change healthcare for the better. It's the knowledge to act.

LET'S GET STARTED

WHERE CAN \$700 BILLION IN WASTE BE CUT FROM
THE U.S. HEALTHCARE SYSTEM?

Download your complimentary copy of our white paper on cost containment and get the facts you need to help reduce waste in the healthcare system. Visit www.factsforhealthcare.com
